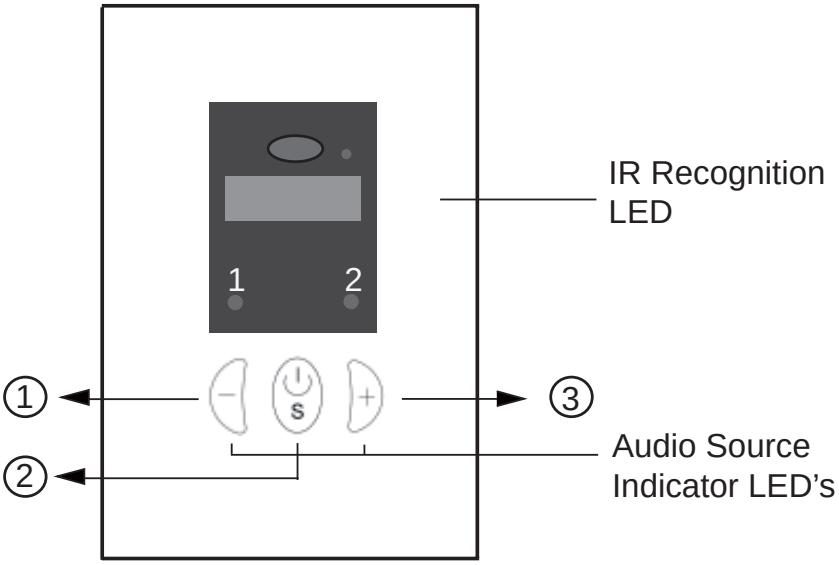
Amplified Volume Control (AVC)

USER MANUAL

Congratulations on your purchase of the 'resi-linx'® Multi Room Audio system.

Below is the User Manual detailing operation of the AVC (Amplified Volume Control)



Wall Plate

There are two ways to operate the AVC - Wall Plate and Remote Control (supplied)

Turn on AVC by pressing ②. The screen will light up blue and read 'resi-linx'.

Turn off by pressing ② and holding for 3 seconds. Upon release, the blue screen light will turn off.

Once the AVC is turned on, increase the volume by pressing ③ and decrease the volume by pressing ①. The screen display will adjust from 1 to 25 (highest).

Press ② to toggle through the available settings (volume, source, treble and bass). Once on the desired setting, press ① or ③ to adjust to your requirement.

The AVC display will switch back to volume adjustment 10 seconds after setting adjustment.
